

CERTIFICATE

We herewith confirm, that the company

Anton Heggenstaller
Mühlenstraße 7
86556 Unterbernbach

possesses the necessary facilities for the treatment of wood for export to **Australia and New Zealand** by the following process:

Artificial drying/ Heat treatment Drying chamber 7

The following directions are to be observed:

- | | | |
|----|------------------------|---------------------------------|
| 1. | Duration of treatment | according to material thickness |
| 2. | Setting of temperature | minimum 75 °C |
| 3. | Temperature addition | 0 °C |

The temperature diagram or rather the temperature recording has/have to show a temperature of at least 75 °C during the total duration of the treatment.

Due to this, the required temperature of >56°C during the treatment of > 0.5 hours will, in all certainty, be maintained.

The performance of the treatment and the technical facilities have been inspected in spot checks by TÜV Bau und Betrieb GmbH, Abteilung Umwelt Service (Department Environment Service).

This certificate is valid until:

November 2005
